Task Description

Generate a New Yorker Poster using the Stable Diffusion text-to-image model for the assigned task.

Guidelines:
- Use the original poster and article context for coming up with a prompt.
- You are not required to generate the same poster as the original cover. Use your creativity and develop what you think will be the best design for the article.
- You will be given two poster design tasks.
- For each poster, you can take a maximum of 10 minutes to design the poster.
- Submit the **final prompt**, **design**, and **time taken** for each poster.

Use Stable Diffusion 1 for Generation
